

Cathrene Lagare

Department of Geophysics, Graduate School of Science, Tohoku University, Sendai, Japan

clagare@dc.tohoku.ac.jp <https://cathlagare.github.io/>

Education

Tohoku University, Japan PhD Geophysics	<i>September 2025 (Expected)</i>
o Supervisor: Dr. Takeshi Yamazaki, Co-advisors: Dr. Junshi Ito and Dr. Giuseppe Torri o Atmospheric Science Group	
Tohoku University, Japan MSc Geophysics	<i>2022</i>
o Supervisor: Dr. Takeshi Yamazaki, Co-advisor: Dr. Junshi Ito o Atmospheric Science Group	
Ateneo de Davao University, Philippines BSc Environmental Sciences, Minor in Sociology	<i>2018</i>

Research and Work Experience

Visiting PhD Student <i>Department of Atmospheric Sciences, University of Hawai'i at Manoa</i>	<i>Honolulu, HI, USA</i> <i>2023 - 2024</i>
o Research on the development of cold surge vortices over the Maritime Continent (Hosted by Dr. Giuseppe Torri)	
Research Assistant <i>Regional Climate Systems Laboratory, Manila Observatory</i>	<i>Quezon City, Philippines</i> <i>2019-2020</i>
o Research on multi-scale characteristics of TC activities in the Western North Pacific under the Southeast Asia Regional Climate Downscaling/Coordination Initiative for Climate Downscaling/Coordinated Regional Climate Downscaling Experiment for Southeast Asia (SEACLID/CORDEX-SEA) project	

Publications

3. **Lagare, C.**, Ito, J., Torri, G., & Yamazaki, T. Seasonal characteristics of mesoscale convective systems over the Philippines. *Submitted*
2. **Lagare, C.**, Yamazaki, T., & Ito, J. (2023). Numerical simulation of a heavy rainfall event over Mindanao, Philippines, on 03 May 2017: mesoscale convective systems under weak large-scale forcing. *Geoscience Letters*, 10(1), 23.
1. **Lagare, C.**, Coronel, R., Cruz, F., Narisma, G. T., Villafuerte, M., & Tibay, J. (2022). Impacts of planetary boundary layer parameterization in RegCM4. 7 on the intensity and structure of simulated tropical cyclones over the Philippines. *Climate Dynamics*, 59(9), 2915-2928.

Honors and Awards

American Geoscience Union (AGU) Outstanding Student Presentation Award	<i>2025</i>
DC2 Japan Society for the Promotion of Science (JSPS) Research Fellow	<i>2025</i>
The International Joint Graduate Program in Earth and Environmental Sciences (GP-EES) Research Grant of Tohoku University, Japan	<i>2021-Present</i>
Monbukagakusho Scholarship (MEXT)	<i>2020-2022</i>
29th Bank of the Philippine Islands Foundation and the Department of Science and Technology, Philippines (BPI-DOST) Science Awardee	<i>2018</i>

Selected Conference and Workshop Presentations

- **Lagare, C.**, Ito, J., Torri, G., Yamazaki, T., (2024, December) Cold Surge Vortices and Their Relation to Tropical Heavy Rainfall During MJO. Poster presentation at the American Geophysical Union Meeting (AGU), USA.
- **Lagare, C.**, Yamazaki, T., Ito, J. (2024, July) Climatological Characteristics of Mesoscale Convective Systems in the Philippines. Poster presentation at the 4th Workshop on Convective Organization and Precipitation Extremes (WCO4), Italy.
- **Lagare, C.**, Yamazaki, T., Ito, J. (2024, May) Climatological Characteristics of Mesoscale Convective Systems in the Philippines. Oral presentation at the Japan Geoscience Union Meeting (JpGU), Japan.
- **Lagare, C.**, Yamazaki, T., Ito, J. (2023, August) Mesoscale Convective Systems Under Weak Large-Scale Conditions over Mindanao, Philippines. The 6th International Workshop on Nonhydrostatic Models (NHM-WS2023), Japan.
- **Lagare, C.**, Yamazaki, T., Ito, J. (2023, May) A Case Study of a Heavy Rainfall Event Associated with Mesoscale Convective Systems under Weak Large-Scale Conditions over Mindanao, Philippines. Oral presentation at the Japan Geoscience Union Meeting (JpGU), Japan.
- **Lagare, C.**, Yamazaki, T., Ito, J. (2023, April) Characteristics of Mesoscale Convective Systems in the Philippines. Poster presentation at the European Geoscience Union Meeting (EGU), Austria.
- **Lagare, C.**, Yamazaki, T., Ito, J. (2022, May) Numerical Simulation of Heavy Rainfall over Mindanao, Philippines. Poster presentation at the Japan Geoscience Union (JpGU) Meeting 2022, Japan.
- **Lagare, C.**, Coronel, R. (2019, July) Numerical Simulations of Heavy Rainfall and Streamflow over Davao City, Philippines: A Baseline Study for the Development of a Hydro-Meteorological Flood Forecasting System. Poster presentation at the 16th Annual Meeting of the Asia Oceania Geosciences Society (AOGS), Singapore.

Skills

Languages: Python, Bash (intermediate). CDO/NCO, Fortran, NCL (basic)

Models: WRF, RegCM
